

Sinclair Broadcast is crossing the line between commercial television and political partisanship broadcasting. The FCC must enforce fair access to PUBLIC AIRWAVES and monitor in a fair and balance way, access to those airwaves. If Sinclair Broadcasting is allowed to broadcast its anti-Kerry show it will be a breach of its contract to serve the public good and should be stopped or they should be fined for it.

This is still a democracy...lets all work to keep it that way.

Thank You.
